PROJECTS

Sekiro - Workout Tracker

Sekiro is a web application that allows you to track your running and cycling workouts by placing a marker on the location you peformed your workout. Sekiro also automatically saves your workouts directly inside your web browser using local storage.

VIEW PROJECT

Ichiraku - Recipe Finder

Search for over 1,000,000 recipes online using the Ichiraku web application. Ichiraku also allows you to upload your own recipes as well as bookmark your favorite recipes for easier access, your uploaded recipes are also automatically bookmarked.

VIEW PROJECT

Dunn Construction - Landing Page

Dunn Construction is a landing page that I built with user experience first in mind. It was one of my first websites built.
